

# G.C. CONCRETE COMPANY LIMITED

Premier provider of aggregates and concrete,  
and quality construction services.

G.C. Concrete Company Limited was incorporated under the Companies Act of Jamaica on January 31, 2012. Since then we have distinguished ourselves as a trusted team member of the local construction industry, supplying quality aggregates and concrete products - which meet local and international standards - and providing quality construction services.

Operating from locations in May Pen Clarendon, we produce a wide range of aggregates for the construction industry ranging from crushed stones, washed sand and sieve sand to fill material for gabion baskets and land fill. With our daily production and reserves in storage, we are always ready to deliver to our clients.

The Environment and Health and Safety is very high amongst our commitments. We are very aware of the impact our operations have on the environment, and as such we have established controls to mitigate the impact on the environment. We have invested heavily in reclaiming lands that we have mined and ensure that our equipment are always operating at optimum to reduce any emissions or incidents.

# ABOUT US

We are involved in various development projects for affordable, sustainable middle-income housing solutions. More information coming soon.
